TESS. More moments that matter.

Therapeutic Engagement and Support System — a welcoming tablet experience for communication, entertainment and shared engagement.

The person beyond the diagnosis.

TRUSELV LTD | 7 October 2026 | truselv.co.uk

TESS. More moments that matter.

Therapeutic Engagement and Support System — a welcoming tablet experience for communication, entertainment and shared engagement.

What TESS brings together

Activities for conversation and communication, AI chat, sign-based interaction, entertainment, games, reminiscence and radio. Available features depend on the app release, plan, connectivity and any required third-party accounts.

TESS is designed to support shared moments between residents, families and care teams. Let the person's interests and preferences guide the activity.

Different ways to take part

Explore touchscreen, keyboard, mouse or stylus use with compatible accessories. Choose a comfortable interaction method and the right level of support. Not every activity or interaction method will suit every person.

Choosing a TESS setup

Start with a demonstration so TruSelv can understand who will use TESS, how it will fit into everyday care and which device and service setup is appropriate.

A tailored offer is provided after discovery. Confirm the exact specification, support, delivery and commercial terms before purchase.

Your own tablet

The TESS app is intended for compatible iPad and Android tablets with a free download. Ask for current store availability, minimum operating-system requirements and available features. This website does not yet publish verified store listings.

Before use in a care setting

Confirm account permissions, shared-device arrangements, connectivity, hygiene instructions, charging and support. Trial activities with the person and offer a way to stop or change activity.

AI may be inaccurate. TESS does not replace clinical advice, an emergency system, a carer or a qualified interpreter. No claim is made that TESS treats, prevents or diagnoses a condition.

Before you order

An order enquiry is not a purchase, reservation or subscription. Confirm the legal seller, exact specification, full payable price, delivery, setup and support and cancellation terms before payment. Product photography is illustrative; it is not a contractual accessory list.

Let?s talk about your setting

Contact support@truselv.co.uk or call +44 7920 693839.
